SUMMARY

Python Developer and Data Science enthusiast with hands-on experience in machine learning, computer vision, NLP, and end-to-end analytics dashboards. Built production-level projects using PyTorch, Scikit-learn, FastAPI, and Streamlit. Strong foundation in EDA, statistical analysis, and AI application development. Eager to contribute to data-driven teams solving real-world problems.

TECHNICAL SKILLS

Languages: Python, SQL, R

ML / AI: Scikit-learn, PyTorch, OpenCV, MediaPipe, Deep Learning, Computer Vision, NLP, Active Learning

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn, EDA, Statistical Analysis, Data Cleaning

Tools & Platforms: Streamlit, FastAPI, Git, GitHub, Jupyter Notebook, MySQL, Power BI, Tableau, Excel

PROJECTS

Human Behavior Analysis AI System | *PyTorch, OpenCV, MediaPipe, Streamlit*

Apr 2026 – Present

- Designed and trained a CNN-based facial emotion recognition model on the FER2013 dataset with real-time posture detection and multimodal behavioral fusion.
- Built temporal emotion smoothing, behavioral stability tracking, and an interactive Streamlit dashboard with real-time confidence analytics.
- Integrated OpenCV, PyTorch, MediaPipe, and Plotly into a scalable, production-ready AI pipeline.
- **GitHub:** github.com/bhagya21-tech/human-behavior-analysis-ai

VisionLoop — Active Learning for Computer Vision | *PyTorch, OpenCV, Streamlit*

Apr 2026 – Present

- Built an end-to-end active learning pipeline reducing manual labeling effort by selecting low-confidence predictions for human annotation.
- Implemented human-in-the-loop iterative retraining workflow and a Streamlit dashboard for uncertainty and confidence visualization.
- **GitHub:** github.com/bhagya21-tech/visionloop

AI Mentor Chatbot — Groq + FastAPI + Python | *FastAPI, Groq API, Llama 3.3 70B, Python*

2026

- Built a personalized AI chatbot with persistent memory, user profile injection, and a browser-based UI using FastAPI and HTML/CSS/JS.
- Implemented session-based JSON memory and prompt engineering for stateful, context-aware LLM responses via Groq API.
- **GitHub:** github.com/bhagya21-tech/chatbot

App Usage Behavior Analytics | *Python, Pandas, Scikit-learn, Streamlit*

2025

- Engineered features (engagement score, attention span) and implemented Random Forest for next-app prediction and KMeans clustering for user segmentation.
- Built a rule-based recommendation system and an interactive Streamlit dashboard with end-to-end ML insights.
- **GitHub:** github.com/bhagya21-tech/behavior-analytics

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

2024 – 2027

Rashtramata Indira Gandhi Mahavidyalaya, Jalna | BAMU, Sambhajinagar

CGPA: 8.2 / 10

CERTIFICATIONS

Crash Course on Python — Google

Data Analysis Job Simulation — Deloitte
